

GZ10 Halogen Reflector Lamp

High-intensity halogen reflector lamps are designed for GZ10 fittings. The reflector design enhances light output and directionality, making them ideal for accent and display applications.

Product Overview

High-Performance Halogen Reflector

The GZ10 Halogen Reflector Lamp is engineered for precision and durability, making it an excellent choice for professional lighting environments. Designed specifically for GZ10 fittings, this lamp delivers a focused, high-intensity beam that is perfect for accent lighting and display applications. Its robust construction ensures reliable, long-lasting performance in demanding settings like track and recessed lighting.

Technical Specifications

Fitting Type	GZ10
Lighting Technology	Halogen Reflector

Applications

Common Applications	Track Lighting, Recessed Lighting, Display Fixtures, Accent Lighting
---------------------	--

Features

Key Benefits

- Focused beam for directional lighting
- Enhanced light output via reflector design
- Durable construction for longevity
