

# Half-Finger Padded Cycling Gloves

These half-finger cycling gloves feature padded palms to absorb vibration. Breathable materials provide ventilation and a secure fit for enhanced grip and control.

## Product Overview

Professional half-finger design optimized for road and mountain biking.

### Professional Half-Finger Cycling Gloves

These high-performance cycling gloves are engineered for comfort and control across road cycling, mountain biking, and recreational riding. Featuring a half-finger design, they provide the perfect balance of protection and dexterity. The integrated palm padding effectively absorbs vibrations, while breathable materials ensure optimal moisture management during intense activities.

## Material & Construction

Multi-material construction featuring mesh palms and elastic spandex backing for a secure fit.

<b>Palm Construction</b>	Mesh, Microfiber, Silicone Print
<b>Back Material</b>	Knitted Elastic Fabric, Spandex
<b>Thumb Material</b>	Terry cloth for moisture absorption
