

# Halogen Electric Oven

This halogen electric oven provides a versatile cooking solution with its halogen heating element. It features adjustable temperature settings and a spacious capacity for efficient and even cooking.

## Product Overview

### Versatile Halogen Cooking

The HC-926 halogen electric oven provides an efficient and versatile cooking solution for professional environments. Utilizing advanced halogen heating technology, this unit ensures even heat distribution for consistent results. Its compact yet spacious design makes it an ideal addition for various kitchen applications.

## Technical Specifications

Power Consumption	1300 W
Voltage Compatibility	110V, 240V
Operating Frequency	50/60Hz

## Performance Metrics

### Key Performance Metrics

**11.5 L**

Capacity

**250 °C**

Max Temperature

Temperature Range	65°C to 250°C
-------------------	---------------

## Features

### Heating Element Type

Halogen
