

# Hand Mower Pipe Clamp

This pipe clamp is designed for use in hand mowers. It provides secure attachment to pipes or tubes of varying diameters, ensuring the structural integrity and functionality of the mower.

## Product Overview

### Robust Hand Mower Component

This pipe clamp is specifically engineered for use in hand mowers, ensuring secure attachment and structural integrity. Featuring a durable construction with a protective black finish, it is designed to withstand operational stresses. The integrated tightening mechanism allows for easy adjustment, making it a reliable component for maintaining your equipment.

## Technical Details

### Manufacturing Process

- Stamping
- Welding
- Paint finish

### Surface Finish

Corrosion Resistant • Black Finish

### Primary Application

Hand Mower
