Product Overview

Professional Rotary Vane Pump

This manual rotary vane pump is designed for the efficient and reliable transfer of non-corrosive fluids, including petrol, kerosene, diesel, and machine oil. Featuring a robust construction of cast iron and steel, it offers a smooth rotary action for easy operation in automotive, agricultural, and industrial environments. The versatile design includes an adjustable inlet tube and multiple blade material options, ensuring it meets the specific demands of your fluid transfer tasks.

Technical Specifications

Suction Distance	1.5 M
Lift Distance	5 M
Flow Rate	22 L/MIN
Rotative Velocity	70 R/MIN
Blade Material Options	Alloy Copper, Bakelite, Carbon
Compatible Fluids	Petrol, Kerosene, Diesel, Machine Oil
