

Hand-Push Agricultural Sprayer with Hose Reel

This hand-push sprayer is equipped with a robust engine and high-pressure pump for effective spraying. Its design includes a hose reel and a sturdy wheeled frame, facilitating easy maneuverability in agricultural and gardening settings.

Product Overview

Professional Hand-Push Sprayer

This robust hand-push agricultural sprayer is designed for efficient, large-scale application of fertilizers and pesticides. Featuring a high-pressure pump system and an integrated hose reel, it provides excellent maneuverability and reach for various agricultural and gardening environments. The sturdy wheel-mounted frame ensures stability and ease of transport across uneven terrain.

Technical Specifications

Primary Applications

- Agricultural crop protection
