

# Hand Rake for Garden Soil and Weeds

This hand rake is designed for gardening tasks such as loosening soil, removing weeds, and collecting leaves in small areas. It features a metal head with multiple tines and a comfortable handle for easy grip and maneuverability.

## Product Overview

### Versatile Hand Rake for Precision Gardening

This durable hand rake is engineered for efficient soil cultivation, weeding, and debris collection in confined spaces. Featuring a robust metal head with multiple tines, it provides excellent maneuverability for detailed work in flower beds, vegetable gardens, and potted plants. Its ergonomic handle design ensures comfort and control during extended use, making it an essential tool for both professional landscaping and home gardening maintenance.

## Technical Specifications

### Construction Materials

- Metal head
- Ergonomic grip handle

### User Suitability

Professional Landscaping • Home Gardening

### Primary Applications

Soil Loosening, Weed Removal, Leaf Collection, Flower Bed Maintenance, Potted Plant Care
