

Hand Smoothing Plane for Woodworking

This hand plane is used for smoothing, shaping, and flattening wood surfaces. It features a metallic body with a sharp blade for precise shaving.

Product Overview

Professional Hand Smoothing Plane

This hand smoothing plane is an essential tool for woodworking professionals, designed for precise smoothing, shaping, and flattening of wooden surfaces. Constructed with a durable metallic body, it provides the stability required for consistent performance. The ergonomic handle and knob design ensure comfort during extended use, while the secure blade mechanism allows for accurate, clean wood shaving.

Construction & Design

Body Material	Cast iron or steel
Grip Material	Wood or plastic
Key Design Features	Ergonomic handle, Adjustable blade, Stable base

Tool Specifications

Primary Applications

- Surface smoothing
- Wood shaping
- Flattening
