

Hand Trowel with Steel Blade

This hand trowel is designed with a polished steel blade for efficient material application. It features a light-colored wooden handle with metal accents for durability and comfortable grip.

Product Overview

Professional Hand Trowel

This high-quality hand trowel is designed for precision and durability in landscaping and gardening applications. Featuring a polished steel blade, it offers excellent resistance to wear while maintaining a clean finish during soil work. The ergonomically designed light-colored wooden handle provides a comfortable grip, complemented by a secure metal ferrule and protective end cap.
