

Handheld Air Quality Meter

This handheld meter measures PM2.5, PM10, and formaldehyde (HCHO) levels in real-time. It features a digital display for easy reading and user-friendly controls.

ADDITIONAL IMAGES

Product Overview

The device features a clear digital display for immediate air quality feedback and intuitive operational buttons.

Professional Air Quality Assessment

This handheld air quality monitor provides real-time, precise measurements of formaldehyde (HCHO) and particulate matter (PM2.5 and PM10) concentrations. Designed for professional indoor environmental assessment, it features a clear dot matrix LCD screen and intuitive navigation controls for seamless operation. The compact, portable design makes it an essential tool for monitoring air safety in residential and office environments.

Detection Capabilities

Designed for convenience, the unit includes a rotating kickstand and a dedicated air intake for accurate HCHO sampling.

Key Detection Ranges

7.5 mg/m³
HCHO Range

999.9 ug/m³
PM2.5 Range

999.9 ug/m³
PM10 Range

Measurement Resolution

Parameter	Resolution
HCHO	0.01 mg/m ³
PM2.5	0.1 ug/m ³
PM10	0.1 ug/m ³

Technical Specifications

User-friendly interface with dedicated keys for power, navigation, and mode selection.

Core Features	LCD Screen, Handheld, Real-time Monitoring, Data Recording
Power Source	3.6V NI-MH battery
Dimensions	73 x 20 x 73 mm
Weight	420 g
Application	Electrical DIY Supplies
