

Handheld Garden Shovel

This is a small, handheld shovel designed for gardening and landscaping. It features a durable metal blade and a comfortable plastic handle.

Product Overview

Professional Gardening Utility

This handheld garden shovel is engineered for precision landscaping and horticultural tasks. Featuring a durable metal blade with a pointed tip, it allows for effortless soil penetration and digging. The ergonomic green plastic handle ensures a secure and comfortable grip, making it an essential tool for transplanting seedlings, digging small holes, and loosening soil in flower beds.
