Product Overview

Professional Handheld Garment Steamer

This multi-function handheld garment steamer utilizes advanced pulse supercharging technology to deliver high-temperature, high-pressure steam that penetrates deep into fabric fibers. Designed for both hanging and flat ironing, it offers versatile care for a wide range of materials including silk, cotton, wool, and linen. With its patented steam atomizing technology, the device ensures efficient wrinkle removal while remaining gentle on delicate garments.

Performance Specs

Steam Penetration Capacity	1 kg
Patented Technologies	Pulse Supercharging, Steam Atomizing, Triple-Heating Nozzle

Usage Compatibility

Fabrics Suitable with Brush

- Plush
- Wool
- Polyester
- Linen Suits

Fabrics Suitable without Brush

- Silk
- Cotton
