

Handheld Garment Steamer

This handheld steam iron is designed for removing wrinkles from hanging garments and fabrics. It features a compact design for easy storage and utilizes steam to gently relax fibers.

Product Overview

Professional Handheld Garment Steamer

This handheld garment steamer is designed for efficient wrinkle removal and fabric care, making it an essential tool for both home and travel. It utilizes high-temperature steam to effectively sanitize fabrics, remove odors, and eliminate mites while remaining gentle on delicate materials. With a focus on safety and convenience, it features an ergonomic design, dual safety protection systems, and integrated storage solutions.

Performance & Safety
