

Handheld Inkjet Printer for Date and Code Marking

This compact inkjet printer is designed for portable marking and coding. It is suitable for printing variable data on diverse surfaces, offering high-resolution output for clear and legible marks.

Product Overview

Versatile Handheld Marking Solution

This compact and portable inkjet printing machine is engineered for on-the-go marking and coding applications, offering exceptional maneuverability for various industrial environments. Designed to print variable data such as dates, lot codes, and serial numbers, it ensures high-resolution output for clear, legible marks on a wide range of surfaces. It is an essential tool for streamlining operations in packaging, manufacturing, and logistics sectors.

Key Features

Printing Capabilities

- Date coding
- Lot number marking
- Serial number printing
- High-resolution output

Primary Applications

Packaging, Manufacturing, Logistics
