

# Handheld Megaphone with USB and TF Card Playback

This handheld megaphone amplifies sound, making it suitable for crowd control and announcements. It supports USB and TF cards for playing pre-recorded audio.

## ADDITIONAL IMAGES

## Overview

### Professional Handheld Megaphone

This handheld megaphone is a versatile, portable public address system engineered for clear sound projection in outdoor events and emergency situations. Constructed from durable, high-temperature resistant eco-friendly materials, it features advanced digital integrated circuitry for high-fidelity audio with minimal distortion. The device offers extensive functionality, including USB and TF card playback, digital recording capabilities, and a built-in siren for crowd control. Designed for mobility and ease of use, it includes a comfortable handle and shoulder strap to ensure reliable performance.
