

Handheld Multi-Purpose Sprayer

This hand-operated sprayer is designed for gardening, cleaning, and pest control applications. It features a durable plastic construction, a translucent bottle, and an adjustable nozzle for switching between mist and stream.

Product Overview

Professional Multi-Purpose Sprayer

This versatile handheld sprayer is engineered for diverse professional and residential tasks, ranging from gardening and horticulture to detailed cleaning and pest control. Its durable, high-quality plastic construction ensures longevity in demanding environments, while the translucent bottle allows operators to monitor liquid levels at a glance. Equipped with an ergonomic handle and a smooth pump mechanism, it provides reliable and comfortable operation for extended use.
