

Handheld Personal Digital Assistant

This is a handheld personal digital assistant (PDA). It is designed for portability, offering functionalities like task management and note-taking.

Overview

Compact Fabric Care Solution

This handheld fabric shaver is expertly designed to rejuvenate your textiles by efficiently removing lint, fuzz, and pills. Featuring a safe rotary blade system protected by a mesh screen, it ensures gentle treatment for a wide variety of fabrics. The device is battery-operated and highly portable, making it an essential tool for maintaining garments, upholstery, and home textiles on the go.
