

# Handheld Pressurized Steam Cleaner

This handheld steam cleaner uses pressurized steam to remove dirt and bacteria from surfaces. It is designed for maneuverability and precise cleaning with attachments for targeted steam application.

## ADDITIONAL IMAGES

## Product Overview

### Professional Steam Cleaning Performance

This handheld pressurized steam cleaner offers a powerful and efficient chemical-free sanitization solution for diverse surfaces. Engineered for versatility, it operates at 3 bar pressure to effectively lift dirt, grime, and bacteria. The ergonomic, compact design ensures high maneuverability for targeted cleaning tasks across various professional and household environments.

## Technical Specifications

### Steam Pressure

**3 bar**

Operating Pressure

Power Rating	1000 W
Input Voltage	230V/50Hz

## Capacity & Dimensions

Boiler Capacity	0.35 L
Effective Water Fill	0.25 L
Dimensions	310 x 130 x 245 mm

## Logistics & Packaging

### Logistics Data

Container Type	Quantity (pcs)
1x20' GP	1808
1x40' GP	3632
1x40' HQ	4100

  

Master Carton	4pcs/ctn: 39.5 x 31 x 52.5 cm
