

Handheld Rotary Die Grinder

This die grinder is a handheld power tool used for grinding, sanding, honing, polishing, or machining materials. It utilizes a rotary tool with various attachments to perform detailed work in hard-to-reach areas.

Overview

Versatile Handheld Rotary Die Grinder

This handheld rotary die grinder is a professional-grade power tool engineered for precision tasks in metalworking, woodworking, and automotive applications. It supports a wide range of functions including polishing, grinding, drilling, cutting, and sculpture, making it a highly adaptable solution for detailed work. With its variable power and speed settings, it is designed to handle diverse material removal and finishing requirements effectively.

Technical Specifications

Rated Power

160 W

Low Range

500 W

High Range

No Load Speed	30000 rpm
Chuck Capacity	3mm / 6mm
Voltage Range	100-230V

Applications

Supported Functions	Polishing, Grinding, Drilling, Cutting, Sculpture
