Product Overview

Versatile Steam Cleaning Performance

This handheld steam cleaner utilizes high-pressure hot steam to efficiently remove dust and dirt from floors, windows, and textiles without the need for toxic chemicals. The device features an automatic heating control system and robust safety mechanisms, including a pressure release function and automatic shut-off. Designed for durability with an aluminum internal pipe and high-intensity exterior casing, it provides a safe and eco-friendly cleaning solution for various environments.

Technical Specifications

Power & Electrical

900 W

Power Rating

220 V

Voltage Range

60 Hz

Max Frequency

Operating Performance

Metric	Value
Steam Pressure	0.2-3.5 Bar
Steam Flow	28 g/min
Water Tank Capacity	350 ml
Temperature Switch	130
Fuse Switch	172

Construction & Design

Material & Build

- Aluminum internal pipe
- High-intensity PP exterior casing
- 2M cable length (1.9M visible)

Available Colors

Red, Yellow, Green, Blue
