

Handheld Steam Vacuum

This handheld steam vacuum combines steam cleaning and vacuuming functionality. The portable and lightweight design is ideal for cleaning cars, furniture, and other hard-to-reach areas.

Overview

Professional Handheld Steam & Vacuum Cleaner

This versatile handheld device combines steam cleaning and vacuuming capabilities into one compact unit. Designed for efficiency, it picks up both wet and dry dust while utilizing steam to sanitize surfaces without the need for harsh chemicals. It is an ideal solution for eliminating allergens and triggers that cause respiratory issues, making it perfect for maintaining a hygienic environment in vehicles and homes.
