

# Hanging Electric Infrared Patio Heater

This hanging electric patio heater provides warmth and light to outdoor spaces. It features an infrared heating element and a safety cage.

## Product Overview

### Efficient Outdoor Heating

This hanging electric infrared patio heater offers a versatile solution for warming outdoor spaces like patios, balconies, and dining areas. Designed with durable metal construction, it features an efficient halogen heating element that provides directional warmth. With safety features like overheat protection and a protective cage, it ensures both comfort and peace of mind during use.

## Technical Specifications

### Voltage Compatibility

- 220-240V, 50/60Hz
- 120V, 60Hz

Power Output	1000 W
Heating Element	Halogen tube

## Features & Control

### Safety Features

Overheat Protection • Safety Cage

Control Options	Mechanical Control, Remote Control, Pull Cord
Additional Functionality	Yes
Integrated Light	Optional lighting functionality available
