

Hardtail Mountain Bicycle with Disc Brakes

This mountain bicycle features a hardtail frame and a front suspension fork. Disc brakes and knobby tires make it suitable for off-road terrain.

Product Overview

Professional Hardtail Mountain Bicycle

This hardtail mountain bicycle is designed for off-road performance, featuring a durable lightweight alloy frame and a front suspension fork to handle rugged terrain. Equipped with reliable disc brakes for superior stopping power and a multi-speed drivetrain, it offers versatile control across various inclines. The knobby tires ensure maximum traction, making it an ideal choice for professional buyers seeking dependable trail performance.
