

# Hardwood Replacement Handle for Garden Tools

This is a replacement handle crafted from hardwood, designed for use with various garden tools. The straight, cylindrical design ensures a comfortable and secure grip for efficient gardening.

## Product Overview

### Professional Grade Replacement Handle

This secondary hardwood straight handle is engineered for durability and reliability in demanding gardening environments. Featuring a smooth, cylindrical design with a rounded top, it ensures an ergonomic grip for extended use. This replacement part is a versatile solution for various heavy-duty gardening tools, including shovels, rakes, and hoes, offering a robust natural wood construction.
