

HDS-10 Fishfinder GPS Chartplotter

The Lowrance HDS-10 Fishfinder/GPS features fishfinding and GPS navigation technologies with a high-definition 10.4-inch Super VGA color display. The SolarMAX PLUS display renders brilliant detail.

Overview

Professional Marine Navigation & Sonar

This high-performance fishfinder and GPS chartplotter is engineered for serious angling and boating applications. Featuring a massive, high-definition 10.4-inch Super VGA color display, it provides exceptional clarity for both sonar imagery and navigational charts. The unit is designed to withstand harsh marine environments while supporting advanced sonar technologies and precise GPS positioning for route planning and waypoint management.
