Product Overview

HDTV Passive Digital Antenna

The DI-04 passive digital TV antenna offers a reliable and energy-efficient solution for receiving high-definition television signals. Its super-thin, flat design with a gloss finish ensures it blends seamlessly into modern home environments. Featuring a versatile base bracket, this antenna supports both horizontal and vertical signal reception and can be easily placed on a tabletop or mounted on a wall.

Technical Specifications

Gain

5 dBi

Max Gain

Frequency Range

- VHF: 174-230MHz
- UHF: 470-810MHz

Output Impedance 75 Ohm

Standing Wave Ratio (SWR) 1.5 d

Design & Installation

Design Features
