Product Overview

HDTV Passive Digital TV Antenna (Model DI-08)

The DI-08 is a passive digital TV antenna engineered for high-definition signal reception without the need for an external power supply. Featuring a super-thin, glossy flat design, this antenna integrates seamlessly into modern living spaces while providing reliable access to over-the-air broadcast channels. Its versatile mounting options, including a unique base bracket for tabletop use or wall-mounting, ensure optimal signal positioning for both VHF and UHF frequencies.

Technical Specifications

Frequency Range

- VHF: 174-230MHz
- UHF: 470-810MHz

Maximum Gain

5 dBi

Gain

Output Impedance

75 Ohm

Standing Wave Ratio

d1.5

Design & Features

Mounting Options

Tabletop • Wall-mountable

Key Features

Super-thin flat design, Glossy finish, Passive operation, No external power required
