

Heated Bar Table with Ashtray

This bar table features an integrated heater and ashtray for functionality and convenience. The table has a sturdy metal construction with a heating element enclosed in a mesh screen.

Overview

Heated Bar Table with Integrated Ashtray

This multifunctional bar table is designed to enhance outdoor social spaces by combining a stable tabletop surface with a built-in heating element and a convenient ashtray. The sturdy metal construction ensures durability, while the integrated heater provides essential warmth for guests in cooler environments. Its sleek, modern aesthetic makes it an ideal addition to patios, bars, and commercial outdoor seating areas.
