

Heated Car Seat Cushion with Breathable Mesh and Leatherette Bolsters

This premium car seat cushion is designed for comfort and style. It features a breathable mesh center panel for ventilation, complemented by durable leatherette bolsters with red accent piping and integrated heating elements.

Overview

Premium Comfort & Heating

This heated car seat cushion is designed to elevate your driving experience with a perfect blend of luxury and functionality. Featuring breathable mesh panels for superior ventilation and durable leatherette bolsters, it provides consistent comfort and style. The integrated heating system ensures warmth during colder climates, while the non-slip backing keeps the cushion securely in place on most standard vehicle seats.
