

Heated Side Mirror Glass for F30

Heated side mirror glass designed for F30 series vehicles. It features a rear mounting plate with integrated heating elements for defrosting and demisting.

Product Overview

Premium Heated Side Mirror Glass

This heated side mirror glass is specifically engineered for F30 series vehicles, offering a direct replacement solution. It features an integrated rear mounting plate with built-in heating elements designed for efficient defrosting and demisting in cold weather conditions. The durable construction ensures resistance to daily road vibrations and impacts, while providing a clear, wide field of view to enhance driver safety.
