

Heavy Construction Vehicle

This heavy-duty construction vehicle is designed for demanding tasks such as loading, excavating, or bulldozing. The vehicle is equipped with multiple axles for enhanced stability and load distribution.

Overview

Versatile Heavy-Duty Construction Machinery

This heavy-duty construction vehicle is engineered for demanding site operations, including loading, excavating, and bulldozing. Built on a robust, multi-axle truck chassis, it offers superior stability and load distribution for challenging environments. The unit features an integrated hydraulic system and ventilation design, ensuring reliable performance during continuous operation.

Technical Specifications

Model Designation	H-312
Chassis Configuration	Multi-axle heavy-duty truck chassis
Key Features	Hydraulic System, Heavy-Duty, Multi-Axle, Construction Grade

Safety & Compliance

Safety Equipment

- Reflective side stripes
- High-visibility cab design
