Product Overview

Heavy Duty Adjustable Wrench

This JIS Class 1 certified adjustable wrench is engineered for heavy-duty professional use. Constructed from high-grade Chrome Vanadium (CRV) steel, it offers superior durability and high torque capacity. The design features a smooth-operating cold-rolled worm mechanism, a laser-carved scale for precision, and an ergonomic, thickened handle for improved grip and control.

Technical Specifications

Engineered for durability with high-grade CRV steel and JIS Class 1 compliance.

Certifications

TUV/GS Approved • BSCI Compliant

Material

Chrome Vanadium (CRV) Steel

Standards Compliance

JIS Class 1, ANSI Standard
