

Heavy Duty Agricultural Plough

This is a heavy-duty agricultural plough designed for primary tillage. It effectively turns and breaks up soil for planting.

Product Overview

Heavy Duty Agricultural Battery Solutions

These heavy-duty agricultural batteries are designed for reliable performance in demanding environments. Each unit is engineered with a focus on environmental safety, featuring a construction that contains 0% mercury and cadmium. The series offers versatile voltage options to support various specialized agricultural and industrial equipment.

Technical Specifications

Available Models

- 4R25-2 6V
- 4R25 6V
- 3R12 4.5V
