

Heavy-Duty Angle Grinder

This heavy-duty angle grinder is designed for cutting, grinding, and polishing various materials. It features a powerful motor for efficient operation and a robust construction for durability.

Product Overview

Professional Heavy-Duty Performance

This heavy-duty angle grinder is engineered for demanding industrial tasks including cutting, grinding, and polishing across a variety of materials. Featuring a robust construction and a high-efficiency motor, it provides the reliability required for continuous professional use. Its design ensures optimal balance and control, making it an essential tool for heavy-duty applications.

Technical Specifications

Rated Power Input	2020 W
Rated Speed	6600 r/min
Max Wheel Diameter	230 mm
Hole Diameter of Wheel	22 mm

Physical Characteristics

Net Weight	5 Kg
Model Identifier	S1M-FF-230A
