Product Overview

Professional-Grade Battery Clamps

These heavy-duty battery clamps are engineered to provide secure and reliable electrical connections across a variety of demanding environments. Constructed with high-quality copper-plated steel, they offer excellent conductivity and corrosion resistance for long-term durability. Designed for versatility, they are suitable for tactical, outdoor, and recreational applications requiring robust power transfer.

Technical Specifications

Rated Current

500 AMP

Current Rating

Materials

Copper-plated steel, Insulated handles

Applications

Suitable Applications

- Tactical equipment
- Outdoor power systems
- Recreational vehicles
- Automotive jump-starting
- Battery charging systems
