

Heavy-Duty Bolt Cutters

These heavy-duty bolt cutters are designed for cutting through tough materials such as bolts, rods, and wire. They feature high-leverage handles for increased cutting power and durable cutting blades for long-lasting performance.

Product Overview

Professional Grade Cutting Power

These heavy-duty bolt cutters are engineered for high-performance cutting tasks involving bolts, rods, and wire. Designed with high-leverage handles, they provide the necessary force to minimize operator effort while maximizing cutting efficiency. Their durable blade construction ensures long-lasting reliability, making them an essential asset for intensive construction, maintenance, and demolition projects.

Technical Specifications

Capable of Cutting

- Bolts
- Rods
- Wire

Design Features

High-Leverage Handles • Durable Cutting Blades

Primary Applications

Construction, Maintenance, Demolition

Variations

Available in various sizes to suit different cutting requirements
