

Heavy-Duty Bolt Cutters

These bolt cutters feature hardened steel blades designed for cutting bolts, chains, threaded rods and wire. They offer a compound cutting action for increased leverage and ergonomic handles for comfortable use.

Product Overview

Professional Grade Cutting Power

These heavy-duty bolt cutters are engineered for demanding industrial and construction environments. Featuring hardened steel blades and a compound cutting action, they provide the necessary leverage to cut through bolts, chains, threaded rods, and heavy-gauge wire with ease. Designed with ergonomic handles and adjustable jaws, this tool ensures both precision and user comfort during extended use.

Technical Specifications

Tool Length

300 mm
Metric Length

12 in
Imperial Length

Blade Material

Hardened Steel

Features

Key Features

- Compound cutting action for increased leverage
- Adjustable jaws for precise cutting
- Ergonomic handle design
- Hardened steel construction

Applications

Industry Suitability

Industrial • Construction • DIY

Cutting Capacity

Bolts, Chains, Threaded Rods, Wire
