

Heavy-Duty Bolt Cutters

These bolt cutters are designed for cutting bolts, rods, and other metal materials. They feature hardened steel jaws and ergonomic handles.

Product Overview

Professional Grade Cutting Power

These heavy-duty bolt cutters are engineered for high-performance cutting of bolts, rods, and various metal materials. Featuring a specialized compound lever mechanism, they deliver significantly increased cutting force with minimal user effort. The hardened steel jaws ensure long-lasting durability, while the ergonomic handle design minimizes fatigue during extended use in industrial or construction environments.

Technical Specifications

Key Features

- Hardened steel jaws for extended tool life
- Compound lever action for maximum cutting power
- Ergonomic handle design for reduced fatigue

Jaw Material	Hardened Steel
Mechanism Type	Compound Lever
Ideal Applications	Construction, Industrial, DIY, Metalworking
