

Heavy-Duty Cargo Tricycle with Metal Cargo Bed

This heavy-duty tricycle is designed for carrying cargo. It features a sturdy frame, a large rear cargo bed, and a comfortable seat for the operator.

Product Overview

Robust Logistics Solution

This heavy-duty cargo tricycle is engineered for reliable transport in demanding environments. Featuring a sturdy frame and a spacious metal cargo bed, it provides a stable platform for delivery services, agricultural tasks, and industrial logistics. Integrated safety lighting ensures visibility during operation, making it a versatile tool for professional load-carrying needs.
