

Heavy-Duty Cargo Tricycle

This heavy-duty tricycle is designed for cargo transportation. It features a robust frame, a spacious cargo bed, and a reliable engine for efficient hauling.

Overview

Robust Cargo Transportation Solution

This heavy-duty cargo tricycle is engineered for demanding commercial and industrial applications where maneuverability and reliability are paramount. Featuring a reinforced frame and a spacious cargo bed, it provides an efficient solution for hauling goods in urban or factory environments. Designed for consistent performance, this vehicle balances load capacity with ease of operation.

Technical Specifications

Key Design Features

- Heavy-duty reinforced frame
- Spacious cargo bed
- Reliable engine performance

Model Number	CT110ZH-A / BYD110ZH-A
Application	Commercial, Industrial, Cargo Transport
