

Heavy-Duty Caulking Gun with Rotating Barrel

This caulking gun features a rotating barrel and a robust frame. It is equipped with a puncture wire and ladder hook for added convenience.

Product Overview

Professional-Grade Application

This heavy-duty caulking gun is engineered for efficient and precise sealant application in both professional and DIY environments. Featuring a robust frame and a smooth rod mechanism, it ensures consistent material flow and reduced user fatigue. The inclusion of a rotating barrel enhances maneuverability in tight spaces, while the integrated puncture wire and ladder hook provide added convenience on the job site.
