

Heavy-Duty Construction Forklift

This heavy-duty forklift is designed for material handling in construction and industrial environments. It features a robust chassis, high lifting capacity, and durable tires for reliable performance on various terrains.

Overview

Heavy-Duty Material Handling Solution

This heavy-duty forklift is engineered for demanding material handling tasks in construction and industrial environments. It features a robust chassis design and high lifting capacity, ensuring reliable performance across various terrains. The unit includes a comfortable operator cabin with intuitive controls designed to enhance both productivity and safety.

Performance

Lifting Capacity Class	100 kN
------------------------	--------

Design & Build

Key Features

- Robust chassis construction
- Durable terrain-ready tires
- Ergonomic operator cabin
- Intuitive control interface

Suitable Environments	Construction, Industrial, Outdoor Terrain
