Product Overview

Professional Grade Demolition Solution

This heavy-duty demolition hammer is engineered for high-impact performance in demanding construction and renovation environments. Designed for breaking concrete, masonry, and asphalt, it features a robust motor and an ergonomic handle to maximize efficiency during prolonged use. Its versatile design supports various accessories like chisels and shovels, making it an essential tool for pipeline laying and mechanical installations.

Performance Metrics

Key Performance Indicators

High

Impact Energy

Heavy-Duty

Duty Cycle

Operational Capabilities

Primary Functions

Breaking, Chiseling, Digging, Slotting, Cutting

Applications

Target Applications

- Pipeline laying
- Mechanical installation
- Water supply and drainage facilities
- Interior decoration
- Port facilities construction
- Asphalt pavement maintenance

Technical Features

Design & Construction

- Robust high-performance motor
- Ergonomic handle for user control
- Vibration reduction system for comfort
- Secure tool retainer for quick bit changes
- Durable construction for demanding tasks

Accessory Compatibility

Suitable for pickaxes, chisels, shovels, and standard demolition breaker bits.

Material Compatibility

Compatible Materials

Concrete • Masonry • Asphalt
