

Heavy Duty Diesel Engine Oil

This engine oil is suitable for use in both imported and domestic high-power supercharged and self-priming diesel engines. It is designed for the commercial operation of heavy trucks, diesel buses, and diesel power equipment.

Product Overview

High-Performance Diesel Engine Protection

This heavy-duty diesel engine oil utilizes a balanced formula designed to provide comprehensive engine protection under demanding conditions. Featuring advanced oil pressure management technology, it maintains optimal viscosity throughout the entire oil change cycle. This ensures consistent performance and effectively prevents abnormal wear caused by viscosity degradation.

Technical Specifications

API Service Category

CF-4

Available Container Sizes

- 4L
- 16L
- 18L

Available Viscosity Grades

15W/40, 15W/50, 20W/50, 20W/60

Key Features

Performance Highlights

1 High

Viscosity Retention

1 Enhanced

Wear Protection
