

Heavy-Duty Digging Shovel with Steel Blade

This is a heavy-duty digging shovel. It features a durable steel blade, a wooden handle for comfortable grip, and a robust D-shaped handle for enhanced control and leverage during digging and landscaping tasks.

Product Overview

Professional Grade Digging Shovel

This heavy-duty digging shovel is engineered for demanding landscaping and construction tasks. Featuring a high-durability steel blade, it offers superior penetration in tough soil conditions. The design incorporates a robust wooden handle paired with a D-shaped grip to provide maximum leverage and user comfort during extended operation.

Construction & Materials

Blade Material	Steel
Handle Material	Wood

Ergonomics & Design

Handle Type	D-shaped handle
Key Features	Heavy-duty, Enhanced control, High leverage

Application

Primary Applications

- Digging
- Landscaping
- Construction
