

Heavy-Duty Earth Moving Equipment

This heavy-duty construction machinery is designed for loading, excavating, and bulldozing tasks. It features a robust chassis, powerful engine, and versatile attachments for efficient operation in demanding environments.

Overview

Versatile Earth Moving Solution

This heavy-duty construction machinery is engineered for high-performance loading, excavating, and bulldozing tasks. Built with a robust chassis and a powerful engine, it is designed to withstand demanding environments in construction sites, mining operations, and infrastructure projects. Its versatility is further enhanced by support for various attachments, ensuring efficient operation across a wide range of worksite requirements.

Technical Specifications

Rated Capacity

600 units

Capacity Rating

Model Identifier

SY5320THB 48

Equipment ID

ZJ-61-01

Capabilities

Ideal Applications

- Construction Sites
- Mining Operations
- Infrastructure Projects

Core Functions

Loading, Excavating, Bulldozing
