

Heavy Duty F Clamp with Wooden Handle

This heavy-duty F clamp features a durable metal bar and a sliding arm. It is equipped with a pressure pad to protect the workpiece from damage during woodworking, metalworking, and other clamping applications.

Overview

Professional Heavy-Duty F Clamp

This heavy-duty F clamp is engineered for demanding woodworking, metalworking, and general clamping applications. It features a robust metal bar and a sliding arm with a durable black finish, ensuring long-term reliability. The ergonomic blue wooden handle provides enhanced grip and control, while the integrated orange pressure pad protects delicate workpieces from surface damage during high-force operations.
