

Heavy-Duty Flatbed Semi-Trailer

This heavy-duty flatbed semi-trailer is designed for transporting large and heavy loads. It features a robust steel frame, multiple axles with durable tires, and support legs for stability.

Product Overview

Robust Transport Solution

This heavy-duty flatbed semi-trailer is engineered for the efficient transport of large and oversized loads. Featuring a reinforced steel frame and high-durability axle configuration, it offers superior stability and load-bearing capacity for construction materials and heavy machinery. Designed with operator safety in mind, it includes integrated lighting and reflector systems to ensure visibility during transit.

Technical Specifications

Frame Material	High-strength steel
Safety Features	Integrated lighting, Roadside reflectors, Support legs

Applications

Suitable Cargo Types

- Construction materials
- Industrial machinery
- Oversized cargo
