

Heavy-Duty Flatbed Truck for Oversized Loads

This heavy-duty flatbed truck is designed for transporting oversized and heavy loads. Its robust chassis and multiple axles ensure stability and maneuverability.

Product Overview

Heavy-Duty Transport Solution

The WTW125A is a specialized flatbed truck engineered for the transport of massive, oversized industrial loads. With a significant rated load capacity of 125,000 kg, it provides a stable and reliable platform for heavy-duty logistical operations. Its multi-axle configuration and robust chassis design ensure optimal weight distribution and maneuverability, making it ideal for large-scale industrial or construction projects.

Performance Metrics

Rated Load Capacity

125000 KG

Rated Load

No-Load Speed

15 KM/h

Technical Specifications

Empty Weight

35000 kg
