

Heavy-Duty Forklift for Construction

This is a heavy-duty forklift designed for construction and industrial use. It features a sturdy frame, heavy-duty tires, and a lifting mechanism for handling heavy loads.

Product Overview

Heavy-Duty Construction Forklift

This heavy-duty forklift is engineered for demanding material handling tasks in construction sites, warehouses, and industrial environments. Featuring a robust frame and high-traction tires, it provides the stability and power required for lifting heavy loads safely. Its durable design ensures reliability in challenging work conditions, making it an essential asset for efficient site operations.

Technical Specifications

Capacity Class

Heavy-Duty • Industrial Grade

Rated Load

3 Tons

Rated Load Capacity

Suitable Applications

Construction Sites, Warehousing, Industrial Settings, Material Handling

Design & Build

Key Design Features

- Robust reinforced steel frame
- High-traction heavy-duty tires
- Precision lifting mechanism
- Corrosion-resistant paint finish
